Principal's Corner

Dear OSSES Family Members,

This week we had our Curriculum Nights, which were a great success. Thank you to all of the parents in attendance.

Picture Day is next Thursday, September 1st, 2016. Students must wear their uniforms for their picture. All students will take a picture for ID and yearbook purposes. Come ready to show us your best smile!

Parents: If you are having issues logging in to your student's AR, Study Island, or OSSES Connect accounts, please email Mrs. Monahan at Monahan@OrlandoScience.org.

We are still doing club placements. Please see Page 9 for more details.

We hope you enjoy your weekend and look forward to seeing your student on Monday.

Sincerely,
Michael Singleton
Principal

Kindergarten

We had an exciting second week of Kindergarten! We are working very hard on remembering the procedures and routines of the classroom and the school. In Social Studies we talked about rules and being good citizens. In Science we learned about making observations and using the scientific method. In

Math we are working with 2D or plane shapes. Some classes are also working on reviewing numbers. In Reading we are working on letter recognition, letter sounds, and sight words. Students are also starting reading centers and activities. If you have not sent in headphones for computer class, please try to by next week.

Just a reminder that it is very hot outside for PE and recess. Please try to send your child to school with a water bottle everyday. Picture day is coming up on Thursday, September 1st. Students must wear their uniform for school pictures. We hope everyone has a great weekend!

Ms. Menoff's class having fun in PE

1st Grade

This week in first grade, Ms. Strickland's class read the book *Bad Apple* talked about being nice to each other and counted to 120 while performing assessments. In Mrs. Ortiz's class they counted to 120 by 1's, 2's, 5's and 10's! They also tasted 3 different types of apples and made a pictograph of which was their favorite. In addition, they also learned about what hap-

pens to apples after they have been mixed with different liquids. In reading they read *Limelight Larry* and learned how to treat others around them. Ms. Swanks class focused on learning and executing the steps of the writing process. We also began our study of various types of communities. In science, we used our senses to observe apples, and what happens to them when they are left to soak in various solutions. In social studies we discussed

what being responsible means. Finally, in math, we practiced place value. The students created their own structures using base-10 blocks, and then calculated the worth of the structure. And Lastly, Ms. Anderson's class learned about place value, making lists in writing, making observations, Rights and responsibilities and in reading, Short /a/ and short /l/ and communities. As well as answering questions about the text.

5th Grade

Thank you for those families that came out to Curriculum Night. It was a great success and it was wonderful to get to see our parents again. In Ms. Farrell's class this week students complet-

ed a STEM activity on Storm Windows using data analysis and cooperative group skills to determine the best solutions. Students did this as an introduction to collecting evidence for

arguments or persuasive writing.

Don't forget that Thursday is picture day! Information on ordering the pictures should have come home today.

2nd Grade

Second grade in Ms. Haines' class has been filled with STEM, time, and writing! Last week, students watched raisins dance in lemon lime soda. This week, students saved a gummy worm named Fred from a watery doom by putting a life preserver on

him using only paper clips. In math, students have been testing their fact fluency and charting their starting point on graphs, which will be updated each month

so students can set and reach fluency goals! In writing, each student chose a summer memory for our first class book.

We had a busy learning week this week! We did steam projects and made new friends. We got to know “owl” about each other through presenta-

tion of their “Whooo am I projects.” Students learned about figurative language and the scientific method. Students also learned about communities as we

3rd Grade

formed our own little communities in Mrs. Cybulski’s class.

4th Grade

What an amazing week in 4th grade! In Science, all classes explored the questions scientists ask as well as the tools scientists use. In Social Studies, all classes discussed the regions and natural features of Florida. In Reading, Ms. Thomas' and Ms. Hurley's classes talked about charac-

ter development and how where you are can change who you are. They also started their novel study of Matilda. Ms. Hurley's class reviewed arrays, factors, and factor pairs in Math. Ms. Thomas' class discussed place value to the millions period, multiplication patterns and properties, and expo-

nents. Ms. Chardavoyne and Mrs. Anderson reviewed 3rd grade skills with their classes. All classes took MAP tests in Reading and Math at the beginning of the week. We thank everyone for coming to Curriculum Night and we hope you have an amazing weekend!

Specials: PE

This week, grades K-2 began a parachute unit. We have done a variety of games with the parachute such as: mouse trap, sharks & minnows, and a going inside the parachute. All of the classes have done a great job following instructions and working together for a common goal.

This week, grades 3-5 continued their volleyball unit from late last week. They have learned skills such as bumping, setting, and serving. Next week they will learn the rules of volleyball and play a lead-up game to better understand rotations and rules.

Club Notice

Dear OSES Families,

We are still processing club requests for the 2016-2017 school year. The spaces are limited and several clubs are already full.

Please remember that all requests must be done using the Club Request Form (see Page 10 or the link below). Please do not just send an email with requests.

<http://orlandoscience.org/elementary/images/OSSES%20Club%20Request%20Form.pdf>

If your student does not want to be part of the club he/she has been assigned, please also use the form above, so we can use the space for someone else.

Thank you,

Paola Stauffer

Assistant Administrator of Operation

Orlando Science Elementary Schools

- Please remember to read club description
- Clubs are typically grouped K-2 and 3-5
- Some clubs have a small fee required to purchase materials and to maintain a high functioning club
- In most cases, our clubs have an end product (major end of year event, competition, etc.)
- This form can be submitted to your student's teacher, the front desk, or can be emailed as an attachment or cut and pasted into an email to Ms. Stauffer
- Club schedules will be given this week. Please plan accordingly for Monday and the remainder of the year
- If you submitted your club request online, there is no need to resubmit your selections
- Students cannot have more than two unexcused absences, three absences will result in withdrawal from the club
- Wait list will be created for each club

Turn in those Box Tops!
Earn Money for our School and...
a Party for your Class!

How does it work?

Cut out the Box Tops from products that you buy.
Turn in your Box Tops to your Teacher or put them in the Collection Box at the front desk. The Box Tops can be on a collection sheet or in an envelope or baggie.
Make sure to label your donation with your teacher's name so that your class gets credit for your donation.

The class with the most Box Tops at the end of each semester will earn a party courtesy of the OSES PV0!
